

## **Mercer Mile Museum Accessibility Information:**

### **Mercer Museum:**

The ground floor of the Mercer Museum features a modern wing that is fully accessible and climate-controlled with a changing exhibit gallery, lecture space, museum shop, and restrooms.

The historic castle portion of the Mercer Museum has an elevator and offers partial accessibility due to narrow passageways. It is not climate-controlled and may experience fluctuations in temperature and humidity, depending on external weather conditions.

### **Fonthill Castle:**

Fonthill Castle is a unique historic site! It offers limited accessibility with steep stairs and narrow, uneven passages throughout the interior of the site.

Fonthill Castle is not recommended for those with limited mobility, issues with stairs, those who cannot stand for long periods of time, or those with concerns about small spaces/claustrophobia. Please notify us if your group includes individuals with accessibility needs.
